

## **Communication of the environmental performance of BCT METALS TO INTERESTED PARTIES 2021**

In BRYANT COMMERCE TRADING, S.L., BCT METALS, we are committed to the environment, for this we have a Quality and Environment Management System, in accordance with the standards UNE-EN- ISO 9001:2015 "Environmental Management Systems. Requirements with guidance for use".

Regarding the environmental performance of ours in 2020, we highlight:

- Direct and indirect environmental aspects have been identified, assessing them according to the evaluation criteria defined in the management system documentation.
- All processes have been analysed taking into account the Life Cycle of our products and services, which has allowed us to improve the systematic monitoring and measurement of the associated environmental aspects.
- Environmental indicators have been revised to know the evolution of our environmental behaviour.
- The list of applicable environmental requirements is kept up to date, evaluating their compliance periodically.
- Effective operational control of the identified environmental aspects has been made.
- An action procedure has been established and implemented in the face of possible environmental emergencies.
- From the comparison between the outcome of the 2020 indicators and the benchmarks, the most significant environmental aspects have been obtained, which have served as the basis for the definition of environmental targets for 2021/22.
- Fuel consumption has been reduced by 22% and paper consumption by 80% compared to last year's data.
